HISTOIRE DU MONDE

Publiée sous la direction de M. E. CAVAIGNAC
professeur à l'Université de Strasbourg

Les travaux encyclopédiques ayant pour objet de tenir les étudiants et le grand public au courant du progrès des connaissances historiques ont, d'une manière générale, subordonné plus ou moins strictement l'histoire du Monde à l'Histoire de l'Europe, et l'Histoire du passé à celle de l'époque la plus immédiatement contemporaine. Il nous a paru bon pourtant, qu'une fois au moins l'Histoire du Monde fût présentée dans ses proportions justes, en faisant aux civilisations exotiques la place correspondant à l'importance réelle qu'elles ont eue dans le passé ; c'est la seule manière d'apprécier objectivement la valeur de la civilisation européenne actuellement dominante. Tel a été le plan général de M. Cavaignac et de ses collaborateurs.
